## Guiding High School Students One-On-One

Access to college can transform a life. Admission to a school that is a good fit and offers a generous financial package can make the difference. Personal College Counseling, Inc.'s mission is to help each student who wants to succeed in college and beyond to find the

college or university that is right for them and puts them on the path to success.

Although my office is in Raynham, it does not matter where a student lives, as PCCI's services are available to students in all 50 states via video conferencing or via telephone. Learn more about PCCI by visiting the website or schedule a complimentary Parent/Student Personal College Consultation.

Best regards,

*Honorio DaSilva-Kilgore, Esq.*
